

Important notes on CORONA VIRUS (COVID-19)

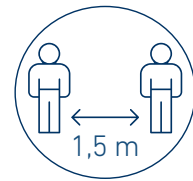

In accordance with the recommendations of the RKI and the Senate requirements, special hygiene regulations apply to our guests when visiting the BOILER

These include in particular:

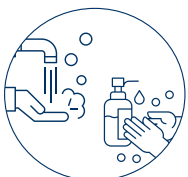

- Our guests are obliged to wear a mouth and nose cover. This does not apply in the sauna, in the pool, when taking a shower or taking a seat.

- We ask our guests to observe the basic distance-Protection and hygiene rules.

- To enter the BOILER, a form for attendance documentation must be filled in.
- Please observe the information regarding the maximum number of persons in the wellness area, the gastronomic area, the rest areas and the sauna.
- Unfortunately we cannot offer any infusions in the sauna at the moment. The Turkish bath and our steam bath will remain closed until further notice.

The predominant transmission path of the corona virus is partly mild sick or asymptotically infected persons by droplet infection (coughing, sneezing).

We kindly ask **all our guests** to wash their hands and disinfect them by entering the BOILER.

We also ask you to refrain from visiting the BOILER if

- symptoms of cough, fever and rhinitis are present
- there has been contact with persons in whom corona infection has been detected
- they have returned from a trip from regions with an increased corona count in the past 4 weeks
- or a risk disease is present.

Thank you very much for your support.

Please refrain from a visit if you cannot follow these rules. Our employees are dependent on your cooperation and will make use of their house rules in case of violation.
